# BUILD YOUR OWN SECURITY WITH ONE SINGLE WIRELESS

VELA-W, FARO-W and BOMA-W are the new two-way devices able to create multiple security solutions by using one single wireless system. Their capability to work together with the alarm control panels CT7, CTH-18 and with two-way wireless receiver VELA 20 CH-W, makes it possible to satisfy the most diverse protection needs. It is also possible to create a completely new installation or to increase the potential of the existing one.

## CT7 SYSTEM TO PROTECT SCAFFOLDINGS, GARAGES, BASEMENTS AND SMALL FLATS

A sounder that integrates the functions of a wireless control panel with GSM. An All-In-One solution with 5 wireless zones and 2 wired zones, extremely easy to install and manage. It is particularly suitable for small and medium-sized installations.

- ✓ 868 MHz two-way dual-band wireless technology
- ✓ Dual technology anti-foam and anti-shock system
- ✓ On-board GSM able to manage up to 6 telephone numbers
- ✓ Optical communicator RGBW LED for system and zones status signaling
- ✓ Notices and feedback through SMS or voice call
- ✓ Up to 6 two-way remote controls with optical and acoustic feedback
- ✓ Setting and management through the dedicated App for Android and iOS

### FARO-W

Two-way wireless infrared detector.

### BOMA-W

Two-way wireless magnetic contact.

### VELA-W

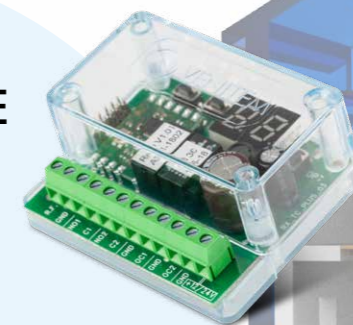

Two-way rolling code remote control with 4 outputs.

## VELA 20 CH-W TO INCREASE THE POTENTIAL OF THE ALARM SYSTEM

The new two-way wireless receiver with 4 outputs, capable of supporting up to 20 wireless devices.

- ✓ 868 MHz two-way dual-band wireless technology
- ✓ Total reliability in the transmission
- ✓ Response of successful control transmission
- ✓ Simple, intuitive and safe management
- ✓ Tamper and low-battery management of connected devices
- ✓ Installation upgrade

### CTH-18

## TO GIVE STYLE TO YOUR HOME

The new wireless control panel with **16 wireless zones, 2 wired zones and integrated GSM.**

Conceived to offer a simple and elegant security solution. Available in different colours, in order to enhance every installation location.

- ✓ 868 MHz two-way dual-band wireless technology
- ✓ On-board GSM able to manage up to 6 telephone numbers
- ✓ Optical communicator RGBW LED for system and zones status signaling
- ✓ Notices and feedback through SMS or voice call
- ✓ Up to 10 two-way remote controls with optical and acoustic feedback
- ✓ Usable as emergency LED
- ✓ Setting and management through the dedicated App for Android and iOS
- ✓ Anomaly notification through SMS
